

BELL WOODTURNERS

JUNE 11, 2009

MAY CLUB DEMO

The May demo was given by Kent Harriss. Kent demonstrated how to make a round bottom box. He made the box using cherry that he obtained from a neighbor. He did a great job, this was his first demo and he did it without using his new skew..

4-H YOUTH WOODTURNERS

The fourth meeting of the 4-H Youth Woodturning Club was held on May 30. We had five kids for the session. They completed a mallet and refined their spindle turning skills. This was in preparation for their next project which will be a stool. If your looking for a good way to help kids and have fun doing it you need to be at the next meeting on June 27.

Demo-Sale Day

The Demo-Sale will be on July 11, 2009. We need five items donated for the hourly drawings. If you have a small bowl or other item to donate tell Tony. We also need demonstrators for the day and helpers to manage the various duties for the visitors. Each visitor gets a free weed pot so we need each member to turn a few. Turning weed pots is also good practice.

May Treasury Report

Beginning balance	\$2885.93
Deposits & Interest	907.61
Expenses	666.04
Ending Balance	\$3127.50
