

# Bell Wood Turners

October 9, 2008

## Jimmy Sapp Turns a Spoon

Jimmy surprised the Club members when he turned two spoons at the same time. After turning a few spoons Jimmy realized that he could build a jig that allows turning to two spoons at the same time.

Top left shows the jig Jimmy made to turn or two spoons simultaneously. The middle picture shows him working on one handle and the photo on the right shows Jimmy shaping the spoon on the grinding wheel he made specifically for hollowing the spoon.

## SawDust Session on 18 October

The Club's policy of conducting a SawDust session on the Saturday following the regular monthly meeting is changed for this month. We will meet on the 18<sup>th</sup> at Bill's shop (one mile west of Newberry on State Rd 26) at 9:00. There will be demonstrations in the morning featuring Christmas ornaments, toy making and tool sharpening. In the afternoon attendees can either attend a session on how to get the most from your chain saw or work on projects that were demonstrated in the morning. Lunch will not be provided but there are good eateries in Newberry.

## Wood Donated to the Club

Florida Exotic Woods closed their doors and rather than let Jack burn the remaining wood, he was convinced to donate it to the Club. The Club is well stocked with pen blanks and smaller pieces of wood that have the end grain protected by a layer of wax. Any member wanting pen blanks please let Gary or Tony know as they each have about 2,000 blanks stored in their shop. The Club is offering the pen blanks free to AAW members, but they must pay a modest shipping and handling fee of \$20.00 to receive 120 pen blanks.

## Treasure Report

Beginning Balance .....	\$2,799.52
Revenue .....	90.62
Expenses .....	0.00
Ending Balance .....	\$2,890.14

## Upcoming Events

- At the November meeting Club members will elect new board members for 2009 term, who will elect the officers.
- The November demonstration will feature Tony doing off-center turning.
