

BELL WOODTURNERS

October, 2009

4-H TURNING CLASS

The September 16th class had seven students. Each student was successful in making a pen. All of them seem to enjoy the process of completing the project. One of the students also completed a three legged stool. With school back in session, we believe that attendance will be much better than during the summer months.

September Club Demo

The September demo was done by Tony Forneris. He turned a tall tree form on the club's Rikon lathe. The tree was tall enough that Tony had to stretch the limitations of the lathe to turn the piece. Tony likes to use the skew to make his pieces. He did a good job of demonstrating the use of the skew.

Coming Events

The Bell Christmas Sale and Parade is scheduled for December 5. The Club will have two spaces for the Sale.

The December 10th Club meeting will be the Christmas Dinner. Each member is requested to bring their favorite covered dish, their spouse or a friend. Meat and drinks will be provided.

September Treasury Report

Beginning balance	\$2972.97
Deposits & Interest	105.67
Expenses	58.34
Ending Balance	\$3020.30
