

BELL WOODTURNERS

September , 2009

4-H TURNING CLASS

The August 29 th Class had only one student. The student completed a three legged stool. The situation was discussed with Cris DeCubellis, 4-H Extension Agent and he has assured us that he will contact the kids to improve attendance for the next meeting. The project planned for the next meeting is to make a pen.

August Club Demo

The August demo was done by Gary Taylor during which he made a “worry stone”. According to Wikipedia, worry stones are smooth, polished, oval shaped gemstones. It is believed that rubbing one between the thumb and forefinger will lessen one’s worries. They originated in Ancient Greece. Of course Gary made his out of a beautiful piece of wood.

Habitat For Humanity

Paula Nicks asked for club participation in a Habitat For Humanity project that she is involved in. Any member that is willing to help can donate a wood turning or anything else that can be auctioned off to raise funds for the project. If you wish to participate see Paula for details. The auction is this month so you need to get your donation to her by September 15.

August Treasury Report

Beginning balance	\$2885.32
Deposits & Interest	87.65
Expenses	0.00
Ending Balance	\$2972.97
